Details

Description

Easy, convenient, fast and without chemicals - the SV 1902 premium class steam cleaner is suitable for all cleaning tasks in the home. Then it's: Full steam ahead! The steam floor nozzle with vacuum function is ideal for dry vacuuming all types of floors and steam vacuuming hard floors (e.g. tiles). The steam vacuum function refreshes carpets and upholstery quickly and easily. Hot steam dislodges dirt and neutralises unpleasant odours. Dissolved dirt and steam are immediately vacuumed away after cleaning. The cleaning power can be adjusted suit the cleaning task with the on-board steam control and suction control on the handle. The vacuumed liquid and dirt are reliably retained in a water filter and can subsequently be emptied. The additional HEPA 12 filter retains the smallest allergenic particles. The exhaust air of the steam cleaner is cleaner than the ambient air. The refill tank can be filled for continuous use.

Application

The SV 1902 is applicable anywhere in the household: - floor cleaning - other hard surface cleaning - other cleaning applications - ironing (with optional accessory)

Features & Benefits

4 swiveled castors Easy to manoeuvre, good stability Parking position Easy to store, no hose/ tube-mess, quick working interruptions possible Permanent refill (only for SV 1902!)
